## **Student/employee accidents involving the head**

Accidents involving the pupil's head can be problematic because the injury may not be evident and the effects only become noticeable after a period of time. If the first aider considers it necessary, the person involved should be referred to the A&E Department of Worthing Hospital

## **Transport to hospital or home**

- The first aider will determine what is reasonable and sensible action to take in each case.
- Where the injury is an emergency an ambulance will be called following which the parent/agent will be called or otherwise informed by the Registrar.

If the school makes arrangements for transporting a child then the following points will be observed:

- only staff cars insured to cover such transportation will be used.
- No individual member of staff should be alone with a pupil in a vehicle.
- The second member of staff will be present to provide supervision for the injured pupil.
